## PadEZ®

Paper Cushioning System

Paper Cushioning Has  
Never Been Easier

### ADVANCED TECHNOLOGY RE-IMAGINES PAPER CUSHIONING

Paper cushioning doesn't have to be hard. The PadEZ® paper cushion system capitalizes on Sealed Air's renowned technical expertise and innovation, and introduces several patented breakthroughs that will change the way we view paper cushioning forever.

### EZ DISPENSING

You control the flow of material with the PadEZ® system by choosing: push-button manual control, foot pedal operation, batching mode, or our Cut and Hold electronic dispensing system which automatically creates a pad and then pauses until you're ready for the next one.

### EZ PAPER HANDLING

The PadEZ® system changes paper handling with several key innovations:

- **Roll Placement** — The system can be loaded from the front or the rear.
- **Auto Loading** — Our patented Auto-Loading technology uses sensors to jog the material into position, guaranteeing perfect alignment every time.
- **Adjustable Pad Width** — Allows the operator to adjust the width to accommodate a variety of product demand for increased protection.

### EZ CONTROL PANEL

The PadEZ® system features the debut of our SmartStation™ control panel, and completely redesigned and intuitive interface that significantly reduces operator training.

### EZ POSITIONING

The PadEZ® system can be easily integrated in an in-line or workcell operation.

### SPECIFICATIONS

**Weight (without material)**  
166kg

**Overall Size (L x W x H)**  
H 170 cm W 88cm L 86cm

**Electrical**  
220-240 VAC,  
3A, 50 / 60 Hz

**Certifications**  
CE, TUV and PSE Approved
